1. The minutes from Rejkjavik were approved.

2. Diskussion about the topics for next years meeting in Finland

There is a proposal to discuss what general practitioners should do. Norway is preparing a paper about overdiagnosis and can present it next meeting. A proposal of a joint nordic statement should be prepared and presented before next years nordic seminar

How to use quality registers, it is important that they are used for good care of patients. Denmark (DSAM) – Norway xxxxxx and Sweden (SFAM) agreed to prepare the topic .

Taskshifting and Reinbursement systems in the different countries (and counties) could be discussed in the reports from the different countries.

Iceland informs about the progress of the “subspeciality” rural medicin in next years seminaar

Medical education, Finland answers for frther discussion on how to go on improving family medicin and general practice in medical education

Lars Gehlert Johansen informed about the Danish and Norwegian young doctors wants a nordic organization for young GP's and the possibility to join "PIP" partners in practice, for collaboration and support with colleagues in developing countries.

Next meeting in Finland, 25th until 27th of august 2016, starting with lunch in the early afternoon. Saturday for social activities.

3. Discussion about **“The role of primary health care in the Nordic health care systems”** The delegates are not very impressed by this statement and would like to rephrase some sentences. A joint action for all Nordic countries, first we all bring it back to our national medical associations. OveAndersson acts as a spokesman from this meeting and informs the Swedish medical Associations international secretary about the need to revise the statement and to define the purpose of the statement and to give more specific aims for primary medical care and family medicine in the. The meeting also gave the possibility for the national medical association to come back to our group for creating a new text if needed. The meeting agreed to make Tor Carlsen from Norway responsible for this work, if this group were given the possibility to revise the statement.

Written from the memory

Agneta Sikvall

The Swedish union of general practitioners
